Disclaimer

This material does not constitute an offer or the solicitation of an offer to purchase an interest Alpha Wealth Low Volatility Fund LP (the “Fund”), which such offer will only be made via a confidential private placement memorandum (the “Memorandum”). An investment in the Fund is speculative and is subject to a risk of loss, including a risk of loss of principal. For a detailed description of certain risk factors and conflicts of interest associated with an investment in the Fund, please carefully read the Memorandum and contact Alpha Wealth Funds, LLC (the “Investment Manager”) with any questions. There is no secondary market for interests in the Fund, and none is expected to develop.

No assurance can be given that the Fund will achieve its objectives or that an investor will receive a return of all or part of its investment. The fees and expenses charged in connection with the Fund may be higher than the fees and expenses of other investment alternatives and may offset profits significantly. All statements herein are qualified in their entirety by reference to the Memorandum, and to the extent that this document contradicts the Memorandum, the Memorandum shall govern in all respects.

This material is confidential and may not be distributed or reproduced in whole or in part without the express written consent of the Investment Manager. The information and opinions contained in this document are for background purposes only and do not purport to be full or complete. The information in this document is not personalized investment advice or an investment recommendation on the part of the Investment Manager. No representation, warranty, or undertaking, express or implied, is given as to the accuracy or completeness of the information or opinions contained in this document, and no liability is accepted as to the accuracy or completeness of any such information or opinions.

About Alpha Wealth Funds, LLC

Alpha Wealth Funds, LLC (“Alpha Wealth Funds”) is a Utah limited liability company and award-winning private investment firm located in Park City, Utah. The firm is focused on providing exceptional advisory services and traditional and alternative investments to individuals, families, and institutional clients.

Founded in 2010 by Harvey Sax, Alpha Wealth Funds services include emerging hedge funds, separately managed accounts, financial planning, estate & trust services, private placements, and in-house concierge services for high-net-worth individuals, families, and businesses.

Investment Team

| Chase Thomas, CFP® - *Portfolio Manager and Managing Partner*

Chase is a seasoned financial professional who began his career in the financial industry at Fidelity Investments. After three years as a Retirement Relationship Manager, Chase was part of the team, overseeing a half billion of 401(k) assets.

Chase manages the Alpha Wealth Low Volatility Fund and specializes in derivative hedging strategies. He is also a Certified Financial Planner.

A Utah native from Park City and BYU graduate, Chase enjoys skiing, trail running, rock climbing, and the arts with his wife and growing family.

| Harvey Sax - *Alpha Wealth Funds Founder and General Partner*

Before starting The Insiders' Fund LP, Mr. Sax was Senior vice president at Oppenheimer, Paine Webber, and Associate Director at Bear Stearns. In addition to his financial acumen, Harvey is recognized as a pioneer in the technology field. He is responsible for creating one of the first publicly traded Internet companies.

Mr. Sax holds a B.A. from Emory University and a Master of Security Analysis and Portfolio Management (MSAPM) at Creighton University.

Stockbroker, Investment banker, and CEO Harvey has sat at most of the investment table's seats. His 360-degree perspective uniquely shapes Mr. Sax's view.

Executive Summary

“The problem I saw was that advisors didn’t know how to trade or were told it was impossible to add value. And so, they didn’t bother. They just managed people and passively took fees; I saw that as a horrendous travesty. If I were to manage money, I would do it in a way that would add value or alpha.”

Chase Thomas, CFP® - Portfolio Manager

Overview and Objective

- » Allocate capital utilizing the buying power of T-Bills and Cash to enhance returns with non-directional index option spreads, opportunistic trades in volatility derivatives, and low-probability option writes on equities
- » Seeks to achieve alpha with lower-than-average market volatility than the broad market
- » The strategy aims to remain uncorrelated to traditional equities and fixed income over the long term

Strategy Advantages

- » The Portfolio Manager’s experience, investment background, and carefully tested methods have resulted in a repeatable investment process
- » Strategy does not attempt to speculate on market direction and can profit in all market environments
- » Section 1256 Options Rule allows favorable tax treatment for broad-based index options. 60% long-term/40% short-term tax treatment, irrespective of the holding period

Risk Management

- » Inherent leverage of securities and derivatives traded must be proactively managed on a trade-by-trade basis
- » Most trades are short term
- » Open positions are monitored in real-time
- » Hedges are integrated in most trades to limit loss
- » Liquidity of securities and derivatives traded allows for an orderly and quick sale if market conditions deteriorate

DISCLAIMER REGARDING PERFORMANCE

PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RETURNS.

The performance information contained herein reflects past performance. In considering any performance data contained herein, you should bear in mind that past performance is not indicative of future results, and there can be no assurance that the Fund will achieve comparable results. You should also bear in mind that past portfolio characteristics may not be indicative of future portfolio characteristics, and there can be no assurance that the Fund will have comparable portfolio characteristics. Unless otherwise stated, the past returns presented on a "net" basis include all amounts received on investments, including interest, dividends, principal payments, prepayment penalties, transaction fees, and capital gains with a deduction for losses and write-downs and as reduced by management and advisory fees, carried interest (whether actual or estimated), taxes and allocable expenses borne by investors (including fund and organizational expenses). Nothing contained herein should be deemed a prediction or projection of the Fund's future performance. No representation is made regarding the accuracy of any statements, estimates, or projections contained herein. Performance returns reflect the time-weighted return, net of (i) an annual management fee of 2.0%, (ii) a performance allocation of 20%, taken annually, subject to a "high water mark," and (iii) transaction costs and operating expenses for a hypothetical partner investing at inception of the respective Fund. Comparative Index information shown herein is included to show relative performance for the periods indicated and not as a standard of comparison, as the individual funds or securities included in the Comparative Indexes may differ in numerous respects from the Fund. The Comparative Indexes were selected by Alpha Wealth Funds, LLC ("Alpha Wealth") based on its judgment and using criteria that Alpha Wealth believes to be appropriate; Alpha Wealth does not make any representations or warranties regarding the appropriateness of a specific index or indices. Index information was compiled from sources that Alpha Wealth believes to be reliable; however, Alpha Wealth does not make any representations or guarantees hereby with respect to, and has not or confirmed, the accuracy or completeness of such data.

Strategy Highlights

The Alpha Wealth Low Volatility Fund, LP (“Fund”) is a non-directional strategy seeking superior, non-correlated returns, independent of traditional equity and fixed-income markets. The strategy was designed to deliver a sophisticated cash management tool for investors that allocates capital among multiple proprietary strategies to purchase and sell the derivatives of fixed-income and volatility securities and Exchange Traded Funds (“ETFs”).

Investment Process

The Alpha Wealth Low Volatility Fund applies a systematic, rigorous investment process to identify high-probability trades through continuous monitoring and analysis of the volatility skew. The fund manager applies decades of experience to examine the implied volatility among volatility, fixed-income instruments, and ETFs, and determine the best trade outcomes in the near term.

Strategy Evolution

As a young man, Chase Thomas worked summers in one of his family's quarries, splitting stone. The family, one of the leading quarry owners in the nation, gave each of their six children \$10k and the advice: "Work smart so you don't have to work hard the rest of your life."

He has been a student of the market, and fascinated with Delta, Gamma, Theta, Vega, and "the Greeks," ever since.

Evolving this strategy since he was 10, the Alpha Wealth Low Volatility Fund is the result of decades of work, and mastery of risk.
